CAREER OBJECTIVE

I am a junior Frontend Developer eager to join a dynamic team where I can enhance my skills, polish my learning and learn new technologies. I am enthusiastic about tackling challenging projects and providing my best service to the team.

LATEST PROJECTS

1. Shofor Pothe - Travelers Guide Website || [Visit Website](#) [Client Code](#) [Server Code](#)

- Admin designate users as a Tour Guide and tourists will see the status of booked packages in dashboard
- Guide can accept or reject tours, the tourist will see their package as accepted or rejected.
- Users can see photos, guides and options to book a package from the package details page.

Technology : ReactJs, TailwindCss, MongoDB, ExpressJs, NodeJs, Firebase and Google Login.

2. Skill Sync - Diverse Service Provider || [Visit Website](#) [Client Code](#) [Server Code](#)

- Service providers can update booked services as 'pending', 'in progress', or 'completed' to track them.
- A user can view other services provided by a service provider on a detailed service page.
- User can see his booked and pending services on my schedule page.

Technology : ReactJs, TailwindCss, MongoDB, ExpressJs, NodeJs, Firebase Authentication

♦Quickfit - Health and Fitness Platform || [Visit Website](#) [Source Code](#) [Documentation](#)

- My Running Team Project where I Individually contributed to the Eshop and Tracker page.
- Eshop- This is like an Ecommerce site where we can purchase category wise products with cart page
- Tracker- User can add exercises and track his daily progress on this page. Also update the progress card

Technology : NextJs, TailwindCss, Mongoose, Express.js, Node.js, Firebase, Private Route.
